

# PICS AND POSES OF CONVENTION

Neo-Life Spokesman Bruce Jenner takes a minute for Christian Rasmussen while Chris' mother, Andrea, looks on.

Lucy Pearson chats with her international friends, Miss Suzuta and Mrs. Takeuchi of Japan.

JoAnn Martens meets some young Amish Neo-Lifers.

## “In Appreciation of His Service and Dedication..”

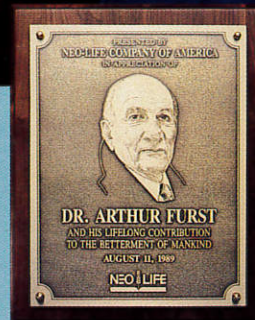

At the Gold Key Banquet on the occasion of his approaching 75th birthday, Neo-Life acknowledged the lifelong achievements of an extraordinary man, Dr. Arthur Furst. His accomplishments as a scientist and researcher span over 40 years and continues today.

Dr. Furst has served as Senior Member of the Neo-Life Scientific Advisory Board since 1976, overseeing and directing ongoing product and development efforts. One such product is Betagard. Betagard was developed exclusively for Neo-Life by Dr. Furst, to nutritionally support the body's natural ability to defend itself against the harmful effects of free radical oxygen and environmental toxins.

Neo-Life is fortunate to have Dr. Furst as part of the Scientific Advisory Board, contributing his expertise, his world-wide associations and his prominent reputation toward the development of scientifically complete formulations reflected in the Neo-Life difference.

President Bob Brassfield presents Dr. Arthur Furst with a plaque in appreciation of his lifelong contribution to the betterment of mankind.
