JOURNAL OF THE AMERICAN COLLEGE OF TOXICOLOGY

VOLUME 8

NUMBER 7

1989

SPECIAL ISSUE ON
TOXICOLOGY OF HEAVY METALS
DEDICATED TO ARTHUR FURST, Ph.D.

Dr. Arthur Furst

Announcement	vii
American College of Toxicology—Part B—Acute Toxicity Data	
Introduction. By MILDRED S. CHRISTIAN	1229
The New Occupational Physician—Necessity for Attention to Environmental Issues. By KENZABURO TSUCHIYA	1231
Promoting Effect of Metal Compounds on Liver, Stomach, Kidney, Pancreas, and Skin Carcinogenesis. By Y. KUROKAWA, M. TAKAHASHI, A. MAEKAWA, and Y. HAYASHI	1235
Animal Tests for Carcinogenesis: Relevance for Man. By F.J.C. ROE	1241
Use of Pulmonary Macrophages in Metal Toxicity: A Brief Overview. By GERALD L. FISHER	1247
Pulmonary Toxicity and Carcinogenicity of Cadmium. By G. OBERDÖRSTER	1251
Antagonists to Metal Carcinogens. By RICARDO E. RODRIGUEZ and KAZIMIERZ S. KASPRZAK	1265
Nickel Allergic Contact Dermatitis: A Review. By T. MENNÉ and H.I. MAIBACH	1271
Chromium(VI) Toxicity: Uptake, Reduction, and DNA Damage. By ANDREW M. STANDEVEN and KAREN E. WETTERHAHN	1275
Zinc Toxicity: Does It Exist? By A. LÉONARD and G.B. GERBER	1285
Mercury. By THOMAS W. CLARKSON	1291
Newer Developments in Arsenic Toxicity. By H. VASKEN APOSHIAN and MARY M. APOSHIAN	1297
Beryllium: Toxicological Research of the Last Decade. By ANDREW L. REEVES	1307
Induction of Metallothionein. By CURTIS D. KLAASSEN and LOIS D. LEHMAN-MCKEEMAN	1315

THE AMERICAN COLLEGE OF TOXICOLOGY

The American College of Toxicology was established in 1977 to advance the science of toxicology and its specialties of clinical, environmental, occupational and forensic toxicology. The founders of the College recognized that advances in toxicology are highly dependent upon adequate interaction with basic and newly emerging scientific disciplines. In that spirit, the College has emphasized through its workshops, conferences, official organ, and annual meetings the multi-disciplinary nature of toxicology and has given special recognition to the areas of carcinogenesis, teratology, mutagenesis, toxicokinetics and behavioral toxicology. Through a variety of programs and activities the College attempts to promote and foster among scientists an improved knowledge and understanding of safety/hazard evaluation and the assessment of risk from exposure to chemical agents. Increasing emphasis is placed on the molecular mechanisms by which toxic chemicals produce their effects.

1989 Board of Governors

President

Dr. Richard M. Hoar
Argus Research Laboratories

Vice President

Dr. Shayne C. Gad
G.D. Searle Company

Treasurer

Dr. Frederick Reno
Consultant

President-Elect

Dr. Carol J. Henry
ILSI Risk Science Institute

Secretary

Dr. Richard L. Steelman
McNeil Pharmaceutical

Past President

Dr. Robert N. Diener
CIBA-GEIGY Corporation

Councilors—1989 only

Dr. Karen M. MacKenzie
Hazleton Laboratories America

Dr. Norbert P. Page
Page Associates

Dr. Ceinwen D. Schreiner
Mobil Oil Corporation

Councilors—1989-1990

Dr. Mary C. Henry
U.S. Army Biomedical R&D Lab

Dr. Edward J. Singer
Mobil Oil Corporation

Dr. Richard D. Thomas
National Academy of Sciences,
National Research Council

Councilors—1989-1991

Dr. James R. Beall
U.S. Department of Energy

Dr. Benjamin A. Jackson
Food and Drug Administration

Dr. Barbara C. Levin
National Bureau of Standards

Editor-in-Chief/Councilor

Dr. Mildred S. Christian
Argus Research Laboratories

Applications for membership are available by contacting the Secretariat, The American College of Toxicology, 9650 Rockville Pike, Bethesda, Maryland 20814—301-571-1840.

The categories of membership are Full, Associate and Student. The dues for Full and Associate members include a subscription to the JOURNAL OF THE AMERICAN COLLEGE OF TOXICOLOGY; for Student members this is optional. Members receive quarterly Newsletters, reduced fees for ACT sponsored meetings and reduced prices on some publications.

Annual membership dues are \$65 per year; \$34 of that sum is applied toward a subscription to the JACT.

IN VITRO TOXICOLOGY

A JOURNAL OF MOLECULAR AND CELLULAR TOXICOLOGY

Editor:

DAVID J. BRUSICK, Ph.D.

Associate Editor:

MATTHEWS O. BRADLEY, Ph.D.

This journal offers a wide range of current investigative work about the molecular and cellular basis and expression of diverse topic phenomena.

Topics include:

- Methods, developments, and validation of in-vitro toxicology tests
- The impact of in-vitro methodology on product safety testing
- Methods for in-vitro to in-vivo extrapolation
- Test procedures for products developed through Biotechnology
