

## Caribbean

Dr. Arthur Furst talks about GNLD's leading-edge products.

### Dr. Furst Draws a Crowd!

Record-breaking attendance marked GNLD's highly publicized Opportunity Meeting held at Wyndham Kingston Hotel. Over 2,000 people from all walks of life were seated in the hotel's ballroom to hear world-renowned toxicologist and Senior SAB member Dr. Arthur Furst. Dr. Furst's presentation centered on the science behind GNLD's products, and the role of the SAB in product formulation. Ricco Brown, Senior Vice President of Sales, closed the evening with a rousing call to action urging audience members to make a positive difference in their lives and the lives of others with GNLD!

Dr. Furst also found his way into thousands of homes all across Jamaica through an interview on the morning news show, *CVM at Sunrise*. Introduced as the "renaissance man of science," Dr. Furst talked about the important roles of each SAB member, and how they work together to formulate practical, diet-enhancing supplements. When asked how close he was to introducing a

"practical, real product," Dr. Furst explained we had already done so with GNLD's revolutionary Carotenoid Complex®! Packed with whole-food carotenoids, and studied by USDA researchers, Carotenoid Complex is most definitely a practical product meeting today's very real dietary needs!

Representing GNLD at this workshop were (inset from the left) Jacqueline Marques, Ann Merry, and Bernice Leanza.

All this exposure in Jamaica resulted in an invitation from the Medical Association of Jamaica for Dr. Furst to speak at their upcoming Medical Symposium on phytonutrients. It's a prestigious event, and Dr. Furst will be the only speaker from a direct sales company represented!

GNLD was represented at the First International Workshop on Herbal Medicine in the Caribbean, by Sapphire Director Donna Dedier-James! Held in the capitol city of Port of Spain, the theme of the workshop was "To Restore a Caribbean Heritage." Donna's presentation featured the health-optimizing benefits of garlic and aloe vera — two herbs with a long history of

use in the Caribbean. After establishing the history of efficacy for both herbs, Donna introduced GNLD's Garlic Allium Complex and Vitality Aloe Vera Plus™. Not only were the products well-received by the audience, but the additional backing of the Scientific Advisory Board drew an enthusiastic response from the audience. This important feature goes hand in hand with the Minister of Health's declaration for the need of herbal products based on scientific formulations!

In this quarter of first-ever events, Barbados achieved their highest PV month ever! This has been an exciting, action-packed quarter for GNLD Caribbean and with the upcoming introduction of new products in some markets, next quarter promises to be even bigger and better than ever!

## CANADA

### Top Speakers Host Exciting Events!

Each month of last quarter was event-filled for GNLD Canada! March began with a visit from Dr. Fred Hooper of the Scientific Advisory Board. Dr. Hooper illustrated the discovery of phytonutrients and their protective benefits to hundreds of distributors and their guests. Dr. Hooper's talent for translating complex information into easy-to-understand language brought the benefits of phytonutrients alive for attendees!

Jim Arnott, President of the Americas, was an honored guest at Mississauga's Opportunity Meeting later that month. Jim also met with top Canadian Sales Team members, and challenged Sales Team members to achieve even more of their dreams!

In April, Ricco Brown, Senior Vice President of Sales, presented the benefits of GNLD's 3-Month Plan to Director at an exciting Opportunity Meeting. Ricco's dynamic presentation clearly outlined the power of this business-building plan. All those in attendance greeted the plan with an enthusiastic response!

Kevin Jensen, Director of Sales, joined Patricia Ralph, Canada's Managing Director, and Debbie Price, Distributor Services Supervisor/Sales Associate, to

present an informative, business-building Director's School to launch off May for Eastern Directors! From there, Kevin visited Kelowna, BC to host a Product and Business Introduction, and then off to Calgary for an All Distributor Training session. Kevin's last stop in Canada was in Lethbridge, AB, for a training session. Throughout all the different types of meetings one thing remained consistent: Kevin helped bring each

attendee closer to reaching their goals and making their dreams a reality!

To top off this event-filled quarter, GNLD Canada hosted two major events: their first-ever Canadian Regional Sales Team Meeting and 20th anniversary celebration! Both events took place on May 23rd, with the Canadian Sales Team Meeting during the day, and the gala event that evening. GNLD Canada's Anniversary Black Tie Dinner and Dance was held at the Marriott Airport Hotel in Toronto. A "class act" all the way, the evening was full of

surprises. From the romantic strains of a violinist and flutist to an entertaining magic show, it was a truly memorable and elegant evening. We extend our congratulations to GNLD Canada for 20 fabulous years of success!
